Creating the pathway to academic and personal success.

Life Tools programme

How the Life Tools programme benefits you

The programme is designed by experts to contribute to your ongoing personal, academic and professional development.

During Welcome Week, talks will be on campus. During the academic year, the programme will be delivered both as webinars and also a combination of on campus and online (hybrid). The webinars consist of a 45-minute online interactive presentation on Blackboard, followed by time for questions about the topic. You can use the mic, chat and Mentimeter to participate. There are no assessments or evaluations. You can try them out to see what topics interest you and learn more about the programme. You can check the details of the programme and book your place at reading.ac.uk/life-tools, and also find the link to the Life Tools Blackboard organisation.

“ It was an awakening experience, I became more understanding of myself and how to improve aspects of my life (such as sleep). It taught me ways to manage my academic life and prepare for exams. The Life Tool’s Programme helped me to navigate and take control in many areas of my life ”

(Third year student)

Our Life Tools programme won the RSU staff-student partnership excellence award in 2018-19

The Life Tools programme is free and open to all students.

The Life Tools Certificate

- The aim of the certificate is to provide evidence of the skills you have developed.
- It is a way of acknowledging and rewarding your commitment to your personal and professional development.
- You can obtain a certificate when you have completed all of the elements required, and it will appear in your academic transcript.

For more information go to reading.ac.uk/life-tools

The Life Tools Blackboard

You can find resources on the Blackboard organisation. Once you enrol, you can access recordings, podcasts and receive a weekly email with information about upcoming webinars/talks, as well as general information on the topics covered.

I PLAN TO ATTEND ON

Learners Mindset: Prevent procrastination and get things done

Do you find it challenging to get started or continue with your assignments? Do you feel there is too much to do and do not know where to start? It can be frustrating, worrying and demotivating.

Academic work requires focused time and effort. Studying for your degree requires reading lengthy and more complex texts. It can be challenging to focus on one task for a set period when we are used to scanning websites and reading content online presented in a bite-sized format. As a result, it takes longer to get work done.

But it does not have to be this way. The Learner's Mindset webinars provide

the space to review strategies to prevent procrastination so that you can make progress with your work.

Learning to prevent procrastination requires consistent effort and practice. Having a group of people with the same goal – to do well in your degree – is a great way to feel energised and motivated to do your work.

Each week's webinar (30 mins) we cover different strategies and tips to develop skills. It is your opportunity to ask questions (you can use the chat, Mentimeter and mic). The webinars provide the opportunity to ask questions and exchange ideas with others. It is space for learning.
