

Avoided emissions through renewable generation

Low & zero carbon electricity generation (kWh)

	2008-09	2022-23	2023-24	% change since last year
Solar PV	0	686793	808863	18% UP
CHP	0	3792285	3489201	8% DOWN
Total:	0	4479078	4298064	4% DOWN

Low carbon heat generation (kWh)

Ground Source Heat Pumps

	2008-09	2022-23	2022-24	% change since last year
Carrington	0	237,830	115,610	51% DOWN

Other renewable energy systems on campus

The following additional energy systems are installed, but are not fully metered:

Enterprise Centre	Solar thermal
Park Eat	Air Source Heat Pump
Chancellors	Air Source Heat Pump
Berrybrook	Air Source Heat Pump
Bourne	Air Source Heat Pump
