

## Avoided emissions through renewable generation

### Low & zero carbon electricity generation (kWh)

	2008-09	2017-18	2018-19	% change since last year
Solar PV	0	65,766	189,398	188 % ↑
CHP	0	3,508,064	4,499,764	28 % ↑
Total:	0	3,573,830	4,689,162	31 % ↑

### Other renewable energy systems on campus

The following additional energy systems are installed, but are not fully metered:

Enterprise Centre	Solar thermal
Carrington	Ground Source Heat Pump
Park Eat	Air Source Heat Pump
Chancellors	Air Source Heat Pump
Berrybrook	Air Source Heat Pump
Bourne	Air Source Heat Pump
Harry Pitt Sub-station	Battery
