SmartestEnergy guarantees to supply certified 100% renewable electricity to University of Reading at their contracted sites for the period listed on this Commitment Certificate. Every megawatt hour of electricity supplied is matched with a UK-recognised origin certificate.

Our renewable electricity tariffs, including Renewable Standard, are certified by the Carbon Trust to be compliant with the Greenhouse Gas Protocol Scope 2 Guidance so University of Reading can report zero carbon emissions for purchased electricity when reporting using the market-based method.

The Carbon Trust Certification is reviewed annually to ensure ongoing compliance. Please refer to the SmartestEnergy website for full details of the current certification period.
