SE-EAP - ideas for getting started with a topic /focus

There is no set format for a SE-EAP event. The following are just a range of possible ideas; there are bound to be many more.

- You may have a **CPD/in-house workshop** you want to open up/offer
- **A talk:** you may have someone who has an area they can/want to give a short talk on
- **Workshops:** you could choose an area of interest and
    - Provide a forum to share ideas and knowledge
    - Ask people to bring sample idea/activities/materials- 'something I've done ' to share
- **Creating materials workshop**
    - Select an area of skills/systems e.g. reading/ listening/seminars/ summarising effectively
    - (Maybe give some input); give a text or task; ask people to work on exploitation ideas
- **Select an area** for discussion/collaboration e.g. assessment/graduate attributes /critical thinking/tracking/classroom research
    - Workshop to consider/think/plan practical applications or scholarship/research projects
- **Seminar discussion**
    - A discussion based on an article
    - You could select an area and a couple of articles to read/discuss
