The Academic Tutor System
A guide for tutors 2019/20
Background
The Academic Tutor System enables students, academic and professional services staff to work together in partnership to enhance students’ academic, personal and professional development.

Support provided by Academic Tutors is appropriate to the context of the discipline and integrates effectively with the wide range of other support available to students at Reading.

Key features of the Academic Tutor System

- Focuses on students’ academic, personal and professional development.
- Works in partnership with our professional support services to support students with any personal challenges that may impact their studies.
- School-level leadership is provided by School Directors of Academic Tutoring.
Your Role as an Academic Tutor

Academic Tutors work in partnership with their tutees to support their academic, personal and professional development.

As an Academic Tutor, you are responsible for providing support across the following themes at appropriate points in the student journey:

### Academic support and study skills
- help students to reflect on their academic progress to date using tools such as the Student Progress Dashboard
- work with students to identify their strengths and weaknesses in relation to academic study skills
- encourage students to develop their study skills through Study Advice, Liaison Librarians, Maths Support, English Language Support, etc.
- help students make decisions in relation to their course and to connect with other academics in their field of study

### Assessment and feedback
- support students to review and reflect holistically on feedback they have received on assessed work, developing their ability to build on knowledge and progress successfully
- work with students to identify consistent patterns in feedback (e.g. poor referencing/structure, insecure research base, etc.)
- discuss the steps they can take to improve their performance in future assessments

### Careers and employability
- discuss students’ career ambitions and employability goals, and encourage students to work towards realising those goals whilst at Reading
- signpost relevant opportunities (e.g. gaining work experience, careers training participation, study abroad, student societies, volunteering, etc.)
- help students to identify and overcome barriers through tutor referral to specialist Careers support
- reflect on progress made to maintain motivation and build resilience.
- write references for students, when requested

### Engaging beyond the programme
- raise awareness of extra-curricular opportunities to encourage students to engage beyond their programme in order to develop transferable skills, build social networks and contribute to the development of the University (e.g. Course/School Representatives, discipline societies, STaR Mentoring, sports clubs/societies, etc.)

### Specialist support services
- establish proactive and effective relationships with your tutees that help to identify student support needs
- refer students to specialist support services as appropriate (see flowchart on p7)
Your Responsibilities

You will act as a key contact for your tutees within your School / Department, establishing proactive, effective and long-lasting relationships that promote their positive engagement within the academic community.

You should:
• Invite students to meet at least once a term (twice in Autumn Term for Part 1), and arrange the meetings.
• Help students reflect on their academic progress and personal and professional development – discuss work, feedback and marks (using submodular mark screens on RISIS), attendance, careers etc.
• Actively encourage engagement of all your tutees.
• Get to know them as individuals to enable you to write references.

Meetings

In your Welcome Week meeting with tutees:
• Explain your role and how you can support and work with them
• Explain how you plan to run future meetings (e.g. one-one or group tutorials, possibilities for Skype/phone meetings), and how they can contact you
• Find out how they’re settling in
• Ask if they’ve been able to access RISIS, Blackboard etc, and if not explain where to go for help
• Remind students about Study Smart, and their STaR mentors

See the “Suggested Outline for Academic Tutor Meetings” document on the Academic Tutor toolkit for more suggestions.

• Listen and ask questions about their academic, personal and professional development
• Agree action points
• Signpost students to other services where appropriate (e.g. for welfare support, or academic study advice)
• Keep records of meetings on RISIS (e.g. of action points and signposting advice provided). Use the confidentiality button when appropriate.
